## Education

Acropolis Institute of Technology and Research, Indore

Sept 2019 – May 2023

B.Tech in Computer Science and Information Technology — CGPA: 7.65

## Experience

**Full Stack Developer**

Noida, India

Zvasa Consultancy Pvt Ltd

Nov 2023 – present

- Developed a **real-time notification** system using **AWS WebSockets** and **Node.js**, improving notification delivery speed.
- Developed an **Agency Management System (Dashboard)** for handling agents, lead submissions, and generating agency-wise and agent-wise Excel analysis reports for performance tracking and decision-making.
- Created APIs to **share lead data** between **multiple providers**, enabling both parties to utilize each other's leads, resulting in **increased lead conversions** and enhanced profitability.
- Developed a system to **alert agency** for **failed ID verifications** of leads, allow re-initiation based on previous inputs, and **track re-attempts for billing**, while ensuring ID verification completion before proceeding.
- Created **customized HTML email templates** to **notify leads and agencies** about profile updates, including success notifications (e.g., file uploads, reference additions) and error alerts, ensuring timely and clear communication.
- Led a team of junior developers and collaborating with **cross-functional teams** to ensure **timely delivery** and client satisfaction.
- Resolved **production bugs**, reducing downtime and optimizing system performance.

**PES Digital Mobility Trainee**

Indore, India

eInfochips-An Arrow Company

Jan 2023 – Oct 2023

- Gained proficiency in **Core Java and ReactNative** for mobile app development with **MVVM architecture**, implementing key features such as **device allocation**, **dashboards**, and **profile management**. Integrated **Room Database** and **Firebase** for seamless data synchronization and offline support.

## Projects

**Inventory Management Software - MERN**

Developed a **full-stack inventory management** app using the **MERN stack**, featuring **secure authentication**, **user profile management**, data validation, image upload, and responsive design for efficient inventory tracking.

**ChatBot - React.Js**

Developed a **real-time chatbot** application using **React.js** and **Firebase**, featuring **responsive design** and **real-time communication**, while training the chatbot to deliver **intelligent technical responses** for improved user support across devices.

## Technical Skills

**Languages & Frameworks:** CoreJava, JavaScript, SQL, React.js, Node.js, Redux Toolkit, Spring Boot

**Cloud & Databases:** AWS (DynamoDB, Lambda, CloudFormation, CloudWatch, S3, EC2), Firebase, MySQL, MongoDB, WebSocket

## Certifications

Agile Scrum Master, AWS Cloud Foundation, Java Programming, React Native
